

Eurogroup for Animals – Broiler chicken welfare – Jan/Feb 2019

Methodology: ComRes interviewed 7,090 adults in seven European countries (UK, France, Germany, Spain, Italy, Poland and Belgium) aged 18+ online between 9th January and 22nd February 2019. Data were weighted to be representative of adults aged 18+ by age, gender and region in each of the six countries. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

For information about commissioning research please contact info@comresglobal.com or call +44 (0)20 7871 8660.

To register for Pollwatch, featuring commentary and insight from the ComRes team, please email: pollwatch@comresglobal.com

Eurogroup for Animals Chicken Welfare Questionnaire

Q6. Summary - To what extent do you agree or disagree with the following statements?

BASE: All respondents

Significance Level: 95%

Statements

Chickens do not feel pain

Chickens are sentient, i.e. have the capacity to feel, perceive or experience subjectively

Chickens are not intelligent

Eurogroup for Animals Chicken Welfare Questionnaire

Q7. Summary - How important or unimportant are each of the following to you when chickens are raised for meat?

BASE: All respondents

Significance Level: 95%

Statements

A suitable environment to behave naturally with access to natural light and enough space to roam around, spread their wings and forage.

A clean environment, with unpolluted air, clean litter, free from disease

Access to a covered or uncovered outdoor area

Are able to enjoy their lives without suffering

Are healthy and free from illness or disease

Are slaughtered using a humane (i.e. quick and painless) method
